

Love will never be be a solid bet
It's kinda like working without a net
Don't be afraid to let your feelings out
That's what loving is all about
Come on baby now gimme a brake
It's how you not how you think
Stop rattling your keys
Shut up and talk to me

I think I've known you long enough to know
There's nothing you can hide that still don't show
You ain't fooling anyone but you
When you put me through what you put me through
Come on baby now tell me the truth
I need a chicken fried stake not a baby Ruth
I'm not that hard to please
Suattm

You can talk about the weather till it drives me nuts
Rattle on about the who why and what's
A conversation wouldn't hurt that much
A little something wit a human touch

If you're hurting baby let me know
You need attention just tell me so
I'm not the one you should be hiding from
It doesn't matter what the ever you done
You can have your cake and eat it too
That's the kind of stuff I want from you
How hard can it bee
